**Notes**

1. **\*\*Identify the Correct Face Side: \*\*** Ensure you distinguish between the face and the sawn back side of the brick. The correct face will feature a fired clay surface typically displaying variegated colors, some with texture or paint.
2. **\*\*Achieve a Uniform Blend: \*\*** Always draw brick from multiple sleeves simultaneously to achieve a well-blended appearance.
3. **\*\*Clean the Bricks Thoroughly: \*\*** Wash each brick on both sides before installation. Although the bricks undergo rinsing after cutting, some dust may remain.
4. **\*\*Plan Your Layout: \*\*** Arrange the brick on the floor according to how you'd like the colors to blend on the wall. Instruct your installer to follow this pattern.
5. **\*\*Utilize Broken Brick: \*\*** Use any broken brick from the shipment for end cuts. Since used bricks may arrive with a few broken pieces, we include extras to ensure you have sufficient material..
