Cleaning

https://prosoco.com/ Clean with masonry safe methods . Test all cleaning products on a small inconspicuous area first

Storage & Handling

Store dry , covered and elevated from grade. Protect from jobsite contamination

Notes

1. **indentify the correct face side :** Ensure you distinguish between the face and the sawn back of the brick. The correct face will feature a fired clay surface typically displaying variegated colors, some with texture or paint. 2 ** achieve a uniform blend : ** Always draw brick from multiple sleeves simultaneously to achieve a well blended appearance. 3 ** Clean the bricks throughly : **. Wash each brick on both sides before installation. Although the bricks undergo rinsing after cutting , some dust may remain . 4. ** Plan ur layout ** Arrange the brick on the floor according to how you'd like the colors to blend on the wall . Instruct your installer to follow this pattern . 5 ** Utilize broken Brick ** Use any broken brick from the shipment for end cuts. Since used bricks may arrive with a few broken pieces, we include extras to ensure you have sufficient material
