Antique Split Soap (Pencils) Firebrick

Division 04 Masonry. Section 04 2100 clay facing brick

It offers the authentic texture and warmth of traditional masonry. The bricks showcase a rustic, weathered look with a blend of soft cream, beige, and light sand tones, accented by subtle distressing and white-washed mortar overtones. Please note: Sizes are approximate and may vary (+/-) Colors may include natural clay tones, stains, cement residue, and paint remnants...

Install in accordance with applicable masonry standards , local codes and project specifications

Storage & Handling

Store dry, covered and elevated from grace. Protect from jobsite contamination

Mortar Recommendations

Use mortar type and joint profile specified by the design professional. Mockups are recommended

Notes

1. **indentify the correct face side :** Ensure you distinguish between the face and the sawn back of the brick. The correct face will feature a fired clay surface typically displaying variegated colors, some with texture or paint. 2 ** achieve a uniform blend : ** Always draw brick from multiple sleeves simultaneously to achieve a well blended appearance. 3 ** Clean the bricks throughly : **. Wash each brick on both sides before installation. Although the bricks undergo rinsing after cutting , some dust may remain . 4. ** Plan ur layout ** Arrange the brick on the floor according to how you'd like the colors to blend on the wall . Instruct your installer to follow this pattern . 5 ** Utilize broken Brick ** Use any broken brick from the shipment for end cuts. Since used bricks may arrive with a few broken pieces, we include extras to ensure you have sufficient material
