Black Galaxy Brushed

-

The brushing process removes softer mineral veins, leaving behind a smooth, satin-matte surface with a gently undulating, organic feel. Speckled throughout the dark stone are small, reflective mineral deposits (such as quartz, copper, or bronze feldspar). When light hits the surface, these flecks catch the illumination and shimmer, mimicking a starry night sky. Please...

Notes

**Identify the Correct Face Side: ** Ensure you distinguish between the face and the sawn back side of the stone. The correct face will feature a natural surface typically displaying variegated colors,. 2. **Achieve a Uniform Blend: ** Always draw stone from multiple sleeves simultaneously to achieve a well-blended appearance. 3. **Clean the stone Thoroughly: ** Wash each stone on both sides before installation. Although the stone undergo rinsing after cutting, some dust may remain. 4. **Plan Your Layout: ** Arrange the stone on the floor according to how you'd like the colors to blend on the wall. Instruct your installer to follow this pattern. 5. **Utilize Broken stone: ** Use any broken stone from the shipment for end cuts. Since thin stone may arrive with a few broken pieces, we include extras to ensure you have sufficient material
