Use mortar type and joint profile specified by the design professional. Mockups are recommend

Notes

1. **Identify the Correct Face Side: ** Ensure you distinguish between the face and the sawn back side of the brick. The correct face will feature a fired clay surface with remnants of used mortar, typically displaying variegated colors, some with texture or paint. 2. **Achieve a Uniform Blend: ** Always draw brick from multiple sleeves simultaneously to achieve a well-blended appearance. 3. **Clean the Bricks Thoroughly: ** Wash each brick on both sides before installation. Although the bricks undergo rinsing after cutting, some dust may remain. 4. **Plan Your Layout: ** Arrange the bricks on the floor according to how you'd like the colors to blend on the wall. Instruct your installer to follow this pattern. 5. **Utilize Broken Brick: ** Use any broken brick from the shipment for end cuts. Since used bricks may arrive with a few broken pieces, we include extras...
