Puebla Big John 17th Century (Thin Veneer 1" Thick)

Physical Properties

Verify project-specific requirements before installation

Installation (Standards / Codes)

Install in accordance with applicable masonry standards, local codes, and project specifications.

Mortar Recommendations

Use mortar type and joint profile specified by the design professional. Mockups are recommended

Cleaning

Do not clean this brick with harsh chemicals or power wash this brick. https://prosoco.com/ Clean with masonry-safe methods. Test all cleaning products on a small inconspicuous area first

Storage & Handling

Store dry, covered, and elevated from grade. Protect from jobsite contamination

Notes

1. **Identify the Correct Face Side: ** Ensure you distinguish between the face and the sawn back side of the brick. The correct face will feature a fired clay surface with remnants of used mortar, typically displaying variegated colors, some with texture or paint. 2. **Achieve a Uniform Blend: ** Always draw brick from multiple sleeves simultaneously to achieve a well-blended appearance. 3. **Clean the Bricks Thoroughly: ** Wash each brick on both sides before installation. Although the bricks undergo rinsing after cutting, some dust may remain. 4. **Plan Your Layout: ** Arrange the bricks on the floor according to how you'd like the colors to blend on the wall. Instruct your installer to follow this pattern. 5. **Utilize Broken Brick: ** Use any broken brick from the shipment for end cuts. Since used bricks may arrive with a few broken pieces, we include extras...
